~Discussion of the School Section Lake Boat Launch. Conflicting information regarding the need for a permit from EGLE to dredge. Mr. Timmer from Road Commission is meeting with their lawyers to determine answer. However, the public is advised that this may be a lengthy process as there are many steps to accomplish before the actual project, if approved by all involved parties, can come to fruition.

~"Dumpster Day" is this Saturday from 8-12 (or dumpsters are full). There is a list of unacceptable items available on the website and at the hall. Any volunteers are welcome.

~DL and DW met with the Zoning Administrator for Pentwater Township to discuss what types of things Colfax would need to complete to begin the process of creating a zoning ordinance. 'Zoning is to prevent bad things from happening'. Colfax Township is NOT saying that zoning is going to happen; instead the board is doing their due diligence to be proactive.

~DL presented a copy of the Grant Township Junk Ordinance to the board for their consideration. DL also suggested looking at the Shelby Township Junk Ordinance. JG will make sure that the Shelby Ordinance is sent to each board member before June meeting. DL also presented a document from Joshua Thall, Township Attorney, explaining the zoning process to provide the board with information.

~DL recapped the Tax Allocation Committee meeting he recently attended. This committee meets once every 10 years. Allocations of monies will remain the same. Headlee Amendment will 'reset' at the beginning of 2027.
